Users manual

- Just install the extension from the TYPO3 Extension Repository and your done.
- A new backend module should appear at the bottom of the WEB module. If not, try clearing the cache and logout / login.
- This is basically it ;)
- You gut some options in the module itself so go try them out (sorting, etc.)

Configuration

- You can configure some settings via Backend Configuration. Just go to the extension manager and click on the extension.
- Just try out, what options are best for you. ;)

Known problems

- None so far. Contact me, if you notice something. ;)

To-Do list

- Contact me :)
- I'll work on the extension, as my time allows me...

ChangeLog

- v.0.0.1: Initial Upload
- v.0.0.2: Added bulk actions, minor optimizations and bug fixes, added PID field in table if global page is selected, added BE Configuration
- v.0.1.0: Security fix. Fixes TYPO3-SA-2010-018, added jQuery Tablesorter, manual update, added PDF manual
- v.0.1.0: New pagebrowser, added possibility to check all comments with a checkbox, added possibility that when you are on a page with subpages and comments on them, it shows comments recursively
